

Short Bio
of
Dr. Md. Mozammel Huq Azad Khan

Dr. Md. Mozammel Huq Azad Khan is a Professor of Computer Science and Engineering (CSE) at East West University. He has been in the teaching profession for more than 40 years. He is one of the pioneering architects of CSE education in Bangladesh. He has vast experience in teaching, research, curriculum development, program accreditation, and education administration. He is globally well known for his fundamental contributions in the emerging reversible logic synthesis research. His Google Scholar metrics are 1848 citations, 24 h-index, and 41 i10-index. His works were cited 55, 61, and 1 time in 2024, 2025, and 2026 (up to 21 January), respectively. Recently, he has changed his focus to clustering research. Besides several conference proceeding papers on clustering published in IEEE Xplore digital repository, Prof. Khan published two sole-authored high quality fundamental research papers on a new data clustering algorithm and a new internal cluster validation index published in *IEEE Access* in 2024 and 2025, respectively.
